

Sharing Gods Grace with the World

Serving with GRACE MINISTRIES INTERNATIONAL APRIL 2022

Aaron Cordero

*Being a disciple of Christ is one of the best decisions one can make in life!!!
Living with Christ, eating with Christ, living for Christ.*

Birthday party at the house of a young man
Aaron is discipling

*Being a servant is to die to my desires,
to my old way of life, to my rights
and try to be a leader in the image of
Christ in service and in love!*

Christ's disciples spent time together as Christ's family, took note of each of his teachings and tried to imitate him in every area of life!!!
Do you think this is great? I do too. But there is one thing we must do that the disciples of Christ also had to do... and this is to take up the cross!

At the time of Jesus on earth, the person who took up his cross knew he was going to die. The responsibility that we should have as servants of Christ is to know that if I take up the cross it is to die: die to my desires, to my old way of life, to my rights and try to be a leader in the image of Christ in service and in love!

As I share an update about the ministries, please pray for God's will to be done.

Senior Ministries:

Though the number of coronavirus infections per day has dropped quite a bit, people are still a little afraid. For this reason, we have decided to visit the elderly at their homes once a week out of love for each one of them.

Discipleship:

God has allowed me to invest in the lives of Pedro, Yordi, Maca and Abel. During the week I meet with each of them and we study the Word of God! Pray that God can transform their lives little by little!

Honduras

God has allowed me to go to Honduras several times. If God allows me, this month I will be making another trip to El Paraíso with the purpose of continuing to make strategic contacts so that very soon there can be a mission field there!!!

Planting on the property of Arraigados

Self-sustainable project:

God definitely does amazing things. First, the dream of being able to have a well on our church property and, then, the dream of having the water tank on a metal tower. It has been two weeks since the irrigation system was finished! Last week the land was prepared and we began to plant seeds to grow bananas, lemons, papayas, tomatoes, guavas and sweet peppers. They all have a very good market around here. I ask for your prayers as the Word of God tells us that God is the one who gives the growth (I Corinthians 3:6). During planting I have met a farmer who has been asking me questions about the gospel. Please pray for good biblical answers. We are now beginning to make a fence to prevent foot traffic across the garden.

We need to be praying so that God may be giving the growth to each one of the plants and that there will be much fruit!!!

Ministry at the Landfill:

I also want us to be praying for the people that we have been visiting at the dump. We pray to God that in one way or another they can get to know Him in a personal way! Thank you very much for your support and for each of your prayers!!!

We pray for people to hear the message of God's Word so that they can come to the feet of Christ and repent of their sins. Witnessing the way God works and is working, it is impossible not to give the Glory and praise to Him!!!

I also want to thank each one of you for having me in your prayers and also for praying and giving support so that each of these projects can be carried out!

A hug from this Nagaroteño to each one of you!!!
